Most weight was given to Comp 1 as it was the most recent sale and the most similar in size and bed/bath count. Sales bracket the final value estimate and were the best and considered most appropriate to compare to the subject property. Living area adjustments were based on \$50 per SqFt. and \$2 per SqFt. of site utility. Value is derived from the actual sale price and adjusted values of all the sales with all comparables contributing to a reliable value range. Indicated Value by Sales Comparison Approach \$
