DISCLAIMER

The fact that you have an alarm for which a permit is required by the City of Downey and one where a permit is on file with the Police Department, whether or not your alarm is directly connected to the Police Department, is not in any manner meant to guarantee protection by the Downey Police Department. The issuance of such a permit is not to be construed by you, your employees, agents or assignees as any promise to provide police response to your alarm. In the event your alarm is activated, and the Police Department is notified, the department will take whatever action is deemed appropriate under the circumstances.

The alarm system you currently have is one predicated strictly upon a contractual relationship between you and your alarm company.

Make checks payable to:
